

AMS 6300 Configuration Readme

Version 1.10

Copyright (c) 2011-2017 epro GmbH

(07/05/2017)

We are pleased that you have decided in favor of our AMS 6300 Configuration software for the AMS 6300 SIS Overspeed Protection System.

The CD-ROM on hand includes the following:

- Download link for the AMS 6300 Configuration software.
- The documentation "AMS_6300_SIS_Operating_Manual.pdf".

Version 1.10 07/03/2017

- Renamed to **AMS 6300 Configuration** (no longer A6970)
- Support of monitors with firmware 2.0 (new monitor generation with USB interface and support for sensor types Hall and VR).
- Minor bug fixes

Version 1.02 12/18/2014

- It is not possible to set the trip value greater than max speed value.
- Proof test function improved.
- Show a configuration differences report with up to 3 cards.
- Minor bug fixes.

Version 1.01 03/04/2013

- Minor bug fixes.

Version 1.00 10/05/2012

- First release of the A6970 software to support the CSI 6300 SIS Digital Overspeed Protection System.

If you should have questions to the program or the installation, we would like to answer them for you.
